

Gaber Tarek

Mobile Developer

01212225927

me@gabertarek.com

Alexandria, Egypt

Profile

I am a software engineer and mobile developer (Flutter) and I have experience in creating and developing mobile applications, I worked with many clients and got a lot of experience building and publishing the application and helping them profit from it and fixing problems with the applications.

I also cooperate with my team in order to do the best work in the shortest possible time. I have built a lot of applications on various platforms from desktop, web and mobile (ios & android).

Experience

Flutter Developer · Pimula

April 2022 - Present

- Collaborate with UI&UX designers and translate designs and wireframes to high quality code.
- Collaborate with the backend team to integrate with internal APIs.
- Ensure the performance, quality, and responsiveness of applications
- Manage testing and bug fixes.

Technical Project Manager · Pimula

May 2023 - Present

- Led cross-functional collaboration to deliver high-quality software products, ensuring seamless coordination between development, design, and QA teams.
- Managed integration of systems and APIs, enabling efficient data exchange and interoperability between different components of the project.
- Implemented rigorous quality assurance processes, ensuring optimal performance, reliability, and user satisfaction of the delivered applications.

Flutter Developer · IT Square

August 2022 - January 2023

We worked together on two Mobile projects, fixing errors and developing one of them, and we worked on it more than another releases.

Flutter Developer · Forgotten Mines

Aug 2023 - Nov 2023

I worked with them as a Flutter web developer in collaboration with Backend and Software team
